History: This message has been replied to.

Next week works better for me, too. I will be on travel from noon today through Friday.

I will be able to check my email in the evenings while I am away this week and will reply as quickly as possible on plans for next week or whenever my input may be needed.

Enjoy the day, Mary

Harvey:

I'm available next week, but need to talk with Meredith about it as well...she on travel this week.

Thanks,

Brad,

The Black & Veatch team, including Wenska Communications, would be very interested and able to assist EPA with the Central Florida phosphate issue. Perhaps we could schedule a time to discuss more in detail tomorrow or some time this week?

Mary is correct -- we now have EPA CO approval of a Basic Ordering Agreement w/ Wenska Communications Works.

Thank You

Hi Harvey,

I just spoke with Brad Jackson about the attached Inside EPA article that came out last Friday regarding the phosphate sites in Central Florida. Brad is interested in assembling resources to assist EPA in responding to increased public awareness of the phosphate sites and risks they may pose to the communities where they are located.

I advised Brad that under the subcontract Joe is preparing for me to sign this week or early next week, I would likely be available through Black & Veatch to help EPA on the CI effort for the phosphate initiative.

Please let me know if I am correct, and if you have any questions for me. I understand Brad will be contacting you directly about next steps in getting a team of people together to support EPA on the FL phosphate sites.

I'll be in my office tomorrow morning, but on travel from noon on Weds through Friday; back at my desk on Monday, Feb 1.

Best wishes, Mary

Mary Wenska
